

Little Green Steps WA & Australian Association for Environmental Education (WA Chapter)

presents:

Biodiversity Awareness and Actions in Early Years Settings

Tuesday 2nd November 2021,
5.00PM – 7.30PM

The Wetlands Centre Cockburn
184 Hope Rd, Bibra Lake WA 6163

Early Years Educators passionate about nature play awareness will love this workshop...

Birds, Bees, Bugs, All Livings things learn how to embed biodiversity awareness into the day to day of your education and care setting. This gives children agency to make a difference by protecting and conserving biologically diverse environments.

We will cover:

- Fun, hand-on activities for children (and educators!) to take action for Biodiversity.
- Introduce Citizen Science projects to take whole centre action.
- Links to the National Quality Standard and the Early Years Learning Framework.
- Opportunities to network with other early childhood professionals.

Please register [HERE](#):
by Tuesday 26th October 2021
