

Little Green Steps WA & Australian Association for Environmental Education (WA Chapter)

presents:

Introduction to Sustainability in Early Years with a water focus

Wednesday 10 August 2022,
5.30PM – 8.00PM

Harvest Lakes Community Centre
62 Aurora Drive Atwell WA

Workshop In Brief!

This workshop provides a solid foundation for anyone working in early years settings with practical examples on how to embed sustainability in your service.

Using the Sustainable Schools WA ecological footprint and social handprint, educators are introduced to sustainable actions with a focus on activities which conserve and protect our water, energy and biodiversity.

You will receive:

- Activities and resources to help your services become more sustainable.
- Assistance with addressing the links between the WA Curriculum, EYLF, NQS and sustainability.
- Inspiration for involving children in hands-on sustainability activities and routines.
- An opportunity to network with other service educators and staff in your area.

REGISTRATION CLOSES ON
9 AUGUST 2022

Please register at:
